## Таблица соответствия промышленных масел CROCUS

Представляем вашему вниманию сводную таблицу соответствия смазочных материалов CROCUS для подбора аналогов. Продукты из нашей линейки по совокупности технических характеристик не уступают, а по некоторым параметрам превосходят образцы от зарубежных и других Российских производителей.

Для удобства рекомендуем воспользоваться поиском по наименованию (Ctrl + F).

За подробным техническим описанием продукции просим обращаться к менеджерам.

### Гидравлические масла

| Наименование CROCUS         | Лукойл                      | Газпромнефть                       | Роснефть   | Shell                               | Mobil                | Total         | Castrol         | Fuchs                   | Texaco                                | Petro-Canada       |
|-----------------------------|-----------------------------|------------------------------------|--|-------------------------------------|----------------------|---------------|-----------------|-------------------------|---------------------------------------|--------------------|
| CROCUS Hydraulic HVLP 10    | Гейзер ЛТ 10                | Hydraulic HVLP 10                  | x  | x                                   | x                    | x             | x               | x                       | x                                     | x                  |
